

CROW WING ORGANIZED IN FOOD CONSERVATION TASK

PRES. MRS. L. P. HALL MAKES REPORT ON SAME

In the Townships the Women are Practicing Conservation Because They Feel Obligated To

In Cities Garbage Can is Still Getting Too Much Valuable Waste---Chairmen of Townships Named

In a letter to Mrs. W. H. Gemmell, district chairman of the Safety Commission, Council of National Defense, Mrs. L. P. Hall of Deerwood, county chairman on food conservation, writes on the progress of the movement in Crow Wing county:

The task of organizing this service in every town and township in our county is not an easy one.

At present we have sixteen interested, active chairmen for town and township work. We should have forty-seven.

As far as I know there has been no organized, disloyal opposition to our work. In every community in our county, I believe, there are enough interested, loyal citizens to carry out the requests of the government. What we need is organization. Just how to further this matter of organization in the thirty-one unorganized towns and townships is one of the problems and I shall greatly appreciate suggestions. There is need of understanding and right thinking in every section of our country these days.

If it were possible to pay every locality a personal visit, I believe more could be accomplished. A printed or written request sounds formidable. The war found so many of our people carelessly or indifferently patriotic that all are not awakened yet.

This Public Safety and Council of National Defense service, as I understand it, is really a service of educating and enlightening the masses and such processes come slow because of psychological reasons. I believe in hastening the process, especially at the present time, as much as possible.

This month the sixteen active chairmen have each sent me a local report on the three subjects, conservation measures, the interest and participation in the purchase of the second Liberty loan bonds and what the local understanding is in regard to voluntary registration.

I am summarizing these reports in my report on these same subjects.

In the townships the women are practicing conservation because they feel obligated to. All have labored at saving the bumper potato crop and in storing vegetables and roots for winter. In the towns a small percent of the women is substituting other cereals for wheat, they are using less meat and I think the majority are careful in the use of fat, as high prices make this very necessary.

Perhaps in time we shall ALL be doing real conservation work but from personal observation I do not think that the majority of our women understand the government plan or the real need for conservation.

We cannot boast of overcoming all waste as yet for just recently I was told of an uncut baker's loaf of bread, one half pound of butter and a pork chop, all articles in good condition, these were taken from a single garbage can. I cannot help but wonder if we shall ever practice the full conservation measures that the government is asking until more pressing measures are adopted. It is easier to express loyalty and patriotism in most any other way than it is to disturb one's habits of living. In some cases the housewife claims that she is already as saving as she can be and she prefers to do the household cooking in the accustomed manner.

Are our bakers and restaurants observing conservation measures?

I wish to make special mention of the good work that the conservation committee in Brainerd is doing. This committee works under the direction of Mrs. R. B. Withington, town chairman. They have been making a record the past month. Unusually good work has been done in arranging for conservation lectures and demonstrations. A food sale of Liberty breads, economy cakes and cookies was held, the proceeds of sale being used to promote our work in the town and throughout the county.

I believe that the women of this county are to make a fine showing on purchase of second Liberty loan

If Kerensky Gets Away and Establishes at Moscow Best that Can Be Asked

(By Shepherd, U. P. Cor.)
New York, Nov. 9—If Premier Kerensky succeeds in getting away from Petrograd and establishes a new government at Moscow I fully believe he will be able to carry enough of the army with him to keep up a semblance of war which is the best we can ask of Russia now. There will be no civil war in Petrograd aside from some street fighting perhaps. In Russia vast forces are working often in an underground way for bringing the people together.

If Lenin Trotsky makes a separate peace it will be peace for only a portion of the Russian army.

Petrograd is likely to fall anyhow and the Germans will probably soon get Helsingfors and then cut the Finnish railway which connects Russia with Sweden. This does not necessarily mean that Russia is gone, but the load will fall on the United States.

C. D. JOHNSON CAME HERE 40 YEARS AGO

Was a Boy Full of Hope, Ambition and Aspirations, How Brainerd Appeared When He Arrived

Indians Were Common on the Streets, the Business Section was All West of Sixth Street

Editor Daily Dispatch:

Forty years ago today, November 9, 1877 (and it was Friday then), I arrived in Brainerd. I was a boy eighteen years of age, full of hope, ambition and aspirations. I have lost my ambition, my aspiration has reached its setting star, but I am still full of hope.

The branch of the Northern Pacific was completed between St. Cloud and Brainerd, and I came through on the first passenger train over that division; Captain Spaulding was the conductor.

I came here to work in a drug store owned by N. McFadden, my salary was \$15.00 a month and board, and I

lawyers, two draymen, three hotels, eight saloons, one newspaper, five churches, one barber shop, one doctor.

In those days, it was as common to see Indians on our streets as it was to realize the presence of bedbugs in the "Leland Hotel." The Indians have disappeared, but I hear, now and then, that the bedbugs are still with us.

It may be amusing, if not interesting to some of my young boy friends, 18 or 20 years old to know that I flirted and danced with such likely girls as Mrs. Fannie Smith, Mrs. Delemere, Mrs. Tim Brady, Mrs. A. J. Forsyth, Mrs. Henry Spalding

COL. C. D. JOHNSON

had to sleep under the counter, and now, after forty years I own a big drug store. (Great Scott! How I have progressed).

Our esteemed fellow-townsmen, I. U. White, was married the second day after my arrival, at a home on south Fifth street, and that night the event was celebrated by the outsiders with an old fashioned charivari. Now like a grandfather, but such is the ever-changing sands of time.

It seems strange, does it not, at that time there were only seven houses west of Sixth street and 33 houses east of Sixth street north of the track? The business section was all west of Sixth street. There were no houses in Northeast or Southeast Brainerd, and that land could have been bought for \$5.00 an acre. Let me enumerate the business houses and professional men of that time. There were four grocery stores, one drug store, two dry goods stores, one jeweler, one news and stationery, two

and Louie Stallman's wife. There were very few girls here then; hardly enough to go around, but they were likely and lovable girls and now when I see so many good looking, beautiful girls in Brainerd just budding into womanhood, I can't help but use a once expressed thought, although I must have passed the age of attraction, (Thank God; the eye for beauty still lingers with me).

It seems passing strange when I think that our merchant prince, "Jimmie" Murphy was but a baby at his mother's breast when I came to Brainerd, and Mrs. Emma Forsyth had the same sweet smile then that now graces her lovely presence. She was as active then in all of our city civic life as she is now.

Ah! but in the curling smoke of retrospect, it dawns upon me that my "limbs are not as lithe and limber" as they were forty years ago.

PANORAMA OF PALM BEACH

Mrs. Clyde Parker Will Have Charge of the Play, Written by Her, and Presented by Local Talent

The "Panorama of Palm Beach," written by Mrs. Clyde Parker, will be presented under her direction on the evenings of the 29th and 30th.

Mrs. C. L. Burnett and Miss Marie Clark are assisting in the preparations for the production of the play. There are more than sixty of our most talented Brainerd people taking parts. The proceeds of the play will be used for our Red Cross work.

bonds. The township women's Ladies' Aid organizations are buying Liberty bonds as are many of the town women and the town woman's organizations. Mrs. W. C. Cobb of Brainerd is chairman of the Liberty loan committee and I know that her appeals have met with good responses so far.

For registration work, I do not think we are prepared to take this matter up as yet. Perhaps Brainerd can do something in registration work. I think I shall ask that a registration committee be appointed there and possibly the women of Brainerd will understand this call and the majority will respond. In the other towns and townships we are not ready yet. It is not understood. The women say we are doing all we possibly can do now. When the knowledge of registration is spread about I feel sure that the majority of our women will welcome such an opportunity to give expression of their loyalty.

Another matter that has interested me is the way the township women seem to welcome an opportunity to do Red Cross knitting. When other needs become known or felt, I believe the responses will be as generous. It is the personal visit and the personal interest that gets the cooperation and response of the township women. In order to reach all we need more workers.

We should be able to carry this message of service for our country in to every school district in our county. We should be able to hold inspiring and instructive meetings in every district schoolhouse. The attendance of every family belonging in the district could be required and a record made of non-attendances. I believe that a splendid patriotic awakening of all our citizens would follow if this could be done.

Along patriotic instruction, another matter is troubling me. We have been too busy with other matters to teach reverence and respect for the flag. In many little ways our flag is not shown the courtesy and respect that is its due. We should correct this fault in some way soon.

Very sincerely yours,

MRS. L. P. HALL.

At the Empress Tonight
Lew Fields in "The Corner Grocer," the latest World-Picture Brady-Made, demonstrates that he is not only a great comedian but a wonderful character actor. In the role of Wendel, the corner grocer, in this production, Mr. Fields has a role that grips the sympathies of the audience at once and holds them enthralled to the very end. Co-starred with Fields in this picture is dear, delightful little Madge Evans, the World's kiddie star. She appears as Mary, the little orphan, who grows up to love Ralph, Wendel's son. The story of the cor-

ner grocer, his rise and his fall when his son goes bad, and the final redemption of the son, is one of the most thoroughly enjoyable dramas ever filmed. In the stage version "The Corner Grocer," ran for 1,007 nights in New York City. Now in the amplified screen version, with Lew Fields in a memorable characterization, "The Corner Grocer" will be seen at the Empress theatre tonight.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority. He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out. This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue. It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

U. S. SHIP ROCHESTER SUNK

is Attacked By German Submarine November 2.

London, Nov. 9.—The American steamship Rochester was torpedoed and sunk at dusk on Nov. 2. Four sailors are known to have lost their lives in the sinking of the Rochester. One boat with the second mate and 13 men is missing.

The captain and 22 men have been landed at Duronara. One lifeboat with nine survivors reached Ross Port, in the county of Mayo.

President May Decide Their Fate. San Antonio, Nov. 10.—President Wilson may be asked to decide the question of life or death for the 63 negro soldiers of the 24th U. S. Infantry, if they are convicted of mutiny in the Houston race riot of August 23. In time of war, the departmental commander has the power to impose the death penalty, but it was intimated today that in case the men are found guilty in the court martial now under way—the finding will be submitted to the president for action.

EAT WAR BREAD

Wheat, as much as steel, is a sinew of war.

Barrels of flour by the thousands, lie buried in the ocean—the work of German submarines.

Our allies must have one billion bushels of wheat to keep their fighting strength. The burden falls on us.

"War bread" is one means of saving wheat. It's body-building, health-giving, and good to eat. And it cuts materially the amount of white flour needed in bread making.

Buy clean, sound wheat from a farmer. Grind it at home in a coffee mill and try this government recipe:

Pour 1 1-4 cups of hot water or skim milk over mixture of 1 teaspoon sugar and 1 1-4 teaspoons salt. When lukewarm add 1/2 cake dry yeast or 1 gill liquid yeast and 11 cups home-ground flour. Set over night to rise. In morning add 1 1/2 cups flour, beat well, put into greased pan, and allow to rise until bulk is double, and bake.

PETROGRAD IS SEIZED; PEACE TO BE SOUGHT

Kerensky Deposed Without Bloodshed—Garrison Assists Maximalists.

MASTER SPY IN POWER

Lenine Cheered at Meeting of Soldiers' and Workmen's Council—Trotsky Announces Provisional Government No Longer Exists.

Petrograd, Nov. 9.—Government forces holding the Winter Palace were compelled to capitulate under the fire of the cruiser Aurora and the cannon of the St. Peter and St. Paul fortress across the Neva river. The woman's battalion, which had been defending the Winter Palace, surrendered.

The workmen's and soldiers' delegates are in complete control of the city.

London, Nov. 9.—Maximalists have seized control of the Russian provisional government and have deposed Kerensky, the Russian news agency reports in a dispatch from Petrograd. The news agency, which was seized by the bolsheviks, also reports that a proclamation was issued by the new government saying an immediate peace would be proposed and that officials of the Kerensky government have been arrested.

Aided by Garrison. The maximalists were assisted by the Petrograd garrison, which made possible the victory without bloodshed.

Leon Trotsky, president of the central executive committee of the Workmen's and Soldiers' council, issued an announcement that the provisional government was no longer in existence and that some of its members have been arrested. The preliminary parliament has been dissolved.

Text of Proclamation. The text of the proclamation of the military revolutionary reads:

"We have deposed the government of Kerensky, which rose against the revolution and the people. The change which resulted in the deposition of the provisional government was accomplished without bloodshed.

"The Petrograd Council of Soldiers and Workmen's delegates solemnly welcomes the accomplished change and proclaims the authority of the military revolutionary committee until the creation of a government by the Soldiers' and Workmen's delegates.

"Announcing this to the army at the front the revolutionary committee calls upon the revolutionary soldiers to watch closely the conduct of the men in command. Officers who do not join the accomplished revolution immediately and openly must be arrested at once as enemies.

Announces Peace Program.

"The Petrograd Council of Workmen and Soldiers considers this to be the program of the new authority:

"First: The offer of an immediate democratic peace.

"Second: The immediate handing over of large proprietorial lands to the peasants.

"Third: The transmission of all authority to the Council of Soldiers and Workmen's delegates.

"Fourth: The honest convocation of a constitutional assembly.

"The National Revolutionary army must not permit uncertain military detachments to leave the front for Petrograd. They should use persuasion, but where this fails they must oppose any such action on the part of these detachments by force without mercy.

"Soldiers! For peace, for bread, for land and for the power of the people!"

(Signed)

"The Military Revolutionary Committee."

Won't Obey Government.

Delegates from the three Cossack regiments quartered here declared they would not obey the provisional government and would not march against the Soldiers' and Workmen's delegates, but that they were prepared to maintain public order.

The Petrograd Council of Soldiers and Workmen's delegates held a meeting at which M. Trotsky made his declaration that the government no longer existed; that some of the ministers had been arrested and that the preliminary parliament had been dissolved.

Cheers For Lenine.

Nikolai Lenine, who received prolonged cheers, outlined the problems now before the Russian democracy.

Soldier Found Dead In Oil Strike Zone Houston, Nov. 9.—Capt. Oscar Hogstedt, La Grange, Ill., stationed at Camp Logan, in command of Company D, 132nd infantry, was accidentally killed at Sour lake, it became known when soldiers stumbled over his body. Captain Hogstedt's company was doing guard duty in the oil strike zone when the accident occurred. Soldiers recalled that an automatic shotgun was accidentally discharged when one private handed it to another. This charge is believed to have killed Hogstedt.

ITALIANS MAKE STAND

Mass Back of Piave River For Decisive Battle.

Allied Support In Form of Anglo-French Veterans Join Latins.

Rome, Nov. 9.—To safeguard the present line of defense and help butters Cadorna's newly established positions French and British reinforcements with scores of heavy field and siege pieces are massing back of the Italian front along the Piave river. Battle To Be Decisive.

Rome cables to Washington reported that the decisive battle of the Teuton drive is entering its first stage with maneuvering for position by the opposing forces.

Train load after train load of heavy artillery and Franco-British veteran troops of scores of battles with all the war equipment available is rolling toward the new war center in addition to that which is already gone forward.

To Stand on Piave River Line. London, Nov. 9.—Italy's supreme last stand in an effort to stem the German invasion is apparently impending. Both the enemy and defending lines have been drawn face to face along the Livenza river. London expected momentarily to learn of the preliminary battle of the Livenza, in which Cadorna's rear guards would attempt to administer a temporary check to the enemy before withdrawing to the now fully prepared Piave river line.

Positions Prepared. Swiss dispatches reported that Cadorna intended merely to delay the enemy along the Livenza and would not bring his full strength into the battle until Piave positions were reached. For nearly two weeks the Italians have been preparing their positions along this waterway. Presumably the reinforcements in men and guns sent by British and French army staffs are held along this line.

Vermont Increases Food.

The hope that the appeal for the production of more food might result in some increase of wheat-growing in the East has been justified in Vermont. It is estimated that 81,000 bushels of wheat were grown this year, against 25,000 bushels last year. The Vermonters have also done well along other lines, for the estimated yield of corn, wheat, oats, barley and potatoes in 1917 is 10,028,000 bushels, compared with 7,547,000 bushels in 1916.

ITALIAN CONDITION PICTURED

"Movies" To Show Allies Failed To Send Supplies.

Washington, Nov. 9.—Officials of the Italian embassy have inaugurated a campaign to lay before the American people conditions in Italy, illustrating the verbal message with moving pictures, showing the country recently won by General Cadorna, and that over which the Italian army is now retreating.

The "movies" were taken by the official military photographers of the Italian war department. They will be shown in the west within a fortnight. Apparently the plan is to state the situation frankly to the people, and definitely charge the Allies, including the United States, with having failed to send to Italy supplies of guns, ammunition, munitions making material and coal.

PREVENT DISEASE IN STOCK

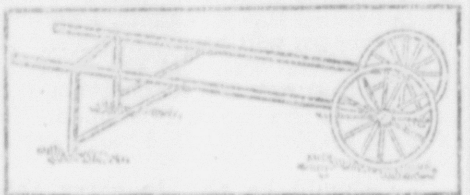

Sanitation and Good Feeding Methods Help Reduce Losses—Keep Meat Animals Healthy.

Proper feeding and sanitation are two important preventives of disease losses in farm animals. If carefully applied these measures may prevent many losses of meat animals. Keep the animals sturdy and disease-resistant by feeding a good, wholesome diet. Young animals need particular care and should be kept growing. A balanced ration should be fed—one that contains enough digestible protein to supply the needs of bone and muscle growth.

REVOLT WILL NOT LAST

Russ Ambassador To U. S. Predicts Its Overthrow.

Actions in Petrograd Cannot be Considered Representative of Country, He Asserts.

Washington, Nov. 9.—In a long distance telephone conversation from Memphis, Tenn., Ambassador Bakhmeteff, talking to the Russian embassy here, stated that if bolsheviks have revolted in Petrograd, any control they may have achieved, is purely local.

The actions or declarations of the Petrograd workmen's and soldiers' council cannot be considered as representative of the other councils scattered throughout Russia, the ambassador stated.

The embassy, still insisting it was without direct official information from the Kerensky government, declared that while perhaps a few remnants of cossacks, influenced by the bolsheviks, may have revolted, their defection is not sufficient cause for general apprehension.

Hope For Best.

"We can only hope and trust that Russia will pass through this hour of peril safely," he said over the telephone.

"The inert spirit of Russia is not represented in Petrograd," said the Russian ambassador.

"The true Russian spirit does not live in Petrograd. Let the people of the United States understand this. The extremists have always disobeyed in that city. They are not the true heart of my country and therefore I can only predict that out of this reported revolution will come Russia as she is hoped to be.

"I am not speaking from an official point of view because I have no official notification relating to the revolution. But personally I will tell the people of America that they can rely on Russia until the end for we are going to stick in this war to bring about democracy and peace."

Teuton Destroyer Sunk.

Jassy, Nov. 7.—Sinking of a Teuton torpedo boat destroyer by a Russian submarine and the burning of a steamer in connection with Russian operations, which destroyed the coastal enemy batteries at the Gulf of Imbros, was reported in a Roumanian official statement.

Sixty-Seven Million Dollars Is a Lot of Money

But That's the Sum the Motion Picture Men Are Going to Raise to Help Your Uncle Sam Bring About a Speedy End to The War With Germany and Knock Out Kaiser Bill

To swell this great Liberty-for-the-World Fund, the United States Government, through an act of Congress, has imposed on the theatres of the Nation a war revenue tax on each admission ticket or pass, and compelled them to pay a daily tax on every reel of motion picture film exhibited, and pay taxes on all other accessories. It's a big job, this tax collecting business, and coming right on top of the Federal income tax, the Federal license, State license, State tax, City and other taxes, the burden of the theatre man has become a tremendous one.

However, Uncle Sam is calling, and there is but one answer:

"WE'LL GIVE THE GOVERNMENT EVERY CENT WE CAN."

To provide the most efficient method of collecting the amusement war tax we at first decided not to increase the prices of admission, and to try to handle the tax ourselves, but owing to our misinterpretation of the law which says "that the tax must be paid by the person paying the admission," we are compelled to make a tax charge of 1c or 2c. We will not charge a profit on the tax as Twin City houses are doing.

Beginning Sunday, November 11th, 1917

The Theatres of Brainerd Will Require a Tax Ticket With Each Admission. 10c tickets require 1c tax. 15 and 20c tickets 2c tax.

Tickets May be Purchased at Box Office in Any Quantity of Either 1 or 2c Denomination. This Tax Goes Directly to the Government, and Not to the Theatre.

SUPREME COURT AFFIRMS ORDER

In Maggie Robertson Respondent vs William P. Robertson Judge McClenahan is Sustained

THE CASE ON ACTION IN EQUITY

Court Made Allowance of \$40 Month for Support, \$75 Attorney's Fees, \$10 Suit Money

The state supreme court affirmed the order in the case of Maggie Robertson, respondent, vs William P. Robertson, appellant.

The syllabus declared that a court of equity, independent of a proceeding for divorce or separation and without statutory authorization, has jurisdiction to decree the wife separate maintenance. In such action temporary support pendente lite may be given the wife. And an allowance may be made for attorney's fees and costs of suit. The allowance made is not held excessive.

This was an action in equity by a wife against her husband for separate maintenance. The court allowed temporary support, suit money and attorney's fees. From the order of Judge W. S. McClenahan making such allowance the defendant appealed.

"The court made an allowance to the plaintiff of \$40 per month for support and \$75 attorney's fees and \$10 suit money, and it is urged that it is excessive," reads the opinion. "The defendant works in the railroad shops at Brainerd. His earnings are from \$75 to \$80 per month. He has some property, including a home, which apparently the plaintiff occupies. The allowance impresses us as liberal. It should not be so large as unduly to oppress the defendant and he as well as his wife has the right to share in his earnings. It is not so excessive as to justify interference. It is but temporary. If the plaintiff prevails upon the trial the court will be in position upon the evidence taken to make a just award."

M. E. Ryan was attorney for Mrs. Robertson and W. W. Bane represented Mr. Robertson. The grand jury returned 11 indictments Wednesday, five on Friday morning and is still in session. None was made made public.

All petit jurors not serving on the case on trial were excused until November 19, at 9 o'clock in the morning.

Serious illness in the family of Jacob Graff caused Judge McClenahan to excuse him from further service in the case and the attorneys on both sides agreed to continue the trial with 11 jurors.

ROLL OF HONOR

First Lieutenant Ralph E. Quinn is relieved from duty at Fort Leavenworth, Kansas, and is ordered to proceed to Camp Taylor, Louisville, Ky., and report to the commanding general.

First Lieutenant Frank M. McCabe is relieved from duty at Fort Leavenworth, and is ordered to proceed to Camp Funston, and will report to the commanding general.

These two young men, the first formerly of Brainerd and the second of St. Paul, brother-in-law, were associated at Fort Leavenworth with First Lieutenant Nathan B. Forest, grandson of the famous cavalry leader, Gen. Forest of the rebel army, also First Lieutenant Delmer O. Hood, grandson of the famous General Hood of the rebel army, defeated by General Sherman at the Battle of Atlanta.

Lieutenants Quinn and McCabe are home in St. Paul on a few days' furlough and will go to their new posts the first part of next week.

The parents of Lieut. Quinn are Mr. and Mrs. James M. Quinn, former residents of Brainerd and now residing in St. Paul.

VIEW BITHULTIC PAVING

Delegation of Brainerd Officials Impressed With the Paving Seen in St. Cloud

A delegation of Brainerd officials including City Attorney W. H. Crowell, City Engineer Robert T. Campbell, Mayor R. A. Beise and Aldermen L. H. Stallman, W. J. Lyons and Fremont Turcotte motored to St. Cloud and viewed the bithultic paving laid there.

St. Cloud has many blocks of the paving which has given good satisfaction and which was equally good as new paving or as repair material. The paving is quickly laid and can be used ten minutes after laid. No streets are ever closed along where the bithultic is laid.

Brainerd laid 17 blocks of cement this year and the delegation wanted to investigate the merits of the other style of paving.

CONSPIRACY WAS THEORY PLANTIFF

County Must be Held to Prove Such Conspiracy or be Precluded From Holding Any of

THE DEFENDANTS EXCEPT

Those Who Were Involved in the Matter of Non-Performance and Over Payment of Contract

In the case of Koochiching county against the Northwestern Construction Co. et al, it is understood Judge W. S. McClenahan of the district court, after hearing arguments, took the position that the theory of the plaintiff was conspiracy, and that the county must be held to prove such conspiracy or be precluded from holding any of the defendants except those who were involved in the matter of non-performance of contract and the over-payment of contract.

Friday morning Attorney F. J. McPartlin of International Falls joined the array of lawyers for the defense. At the morning session much documentary evidence was introduced, warrants, correspondence with the state highway commission, progress statements, records of the county auditor.

L. H. Slocum, former county auditor, was on the stand and identified records.

The case confines itself with State Rural Highway No. 24, which the county alleges was not built according to contract and on which damages of \$50,976.18 are claimed. The complaint charged conspiracy.

MONDAY START OF THE CAMPAIGN

Y. M. C. A. War Fund to be Expended for Benefit of the Boys at the Front

A HOME NEAR THE FIRING LINE

Morale is Needed Factor in War, Y. M. C. A. Combats Immorality

The \$35,000,000 war fund to be expended through the agency of the Y. M. C. A. for the benefit of the boys at the front finds a hearty response in true Americans from the fact that it is but a square deal for the boys.

In the first place it gives them a home right near the firing line; this appeals to our sentiment; then, it is the only agency which is universal in its invitation to men of all creeds to come and share its benefits.

Napoleon said that in war morale is to other factors as three to one. In the face of the astounding fact that 350,000 of the Allied soldiers are incapacitated because of immorality and the fact that the Y. M. C. A. has proven that it can satisfactorily combat this evil, appeals as a duty that we support this institution. These boys will return home and if "unclean" they will make mighty poor citizens. The Y. M. C. A. is with the army to keep them "clean."

The committees met last night and were in session until a late hour planning for the canvass which will begin Monday. This is entirely volunteer work. This work is giving no one "fat" jobs but is calling upon the country's busiest men and they are responding by giving services which money could not buy—and all for our boys.

President Wilson Says: "May I not express the very high value I have attached to the work accomplished by the Y. M. C. A. and my sincere personal interest in the large plans of the war work council for the work still ahead of the association."

Ex-President Roosevelt Says: "What the Y. M. C. A. has been doing in Europe has been really remarkable, and now our citizens should aid them to do the same type for our own men."

Brainerd begins Monday to canvass for her share of the \$35,000,000 for this work. Stand by the boys—send the Y. M. C. A. to them.

Men's Class Organized

The men have organized a special class for you, Mr. Man, which meets every Sunday morning at 11:45 in the First Congregational church. Interesting subjects along constructive lines of study will be discussed. The membership is already up to the fifty mark. Your attendance will help boost it to double that number. Brainerd needs such an organization. You need such a class. Resolve now, no matter who you are, to be on hand this Sunday to get your share of the good things that will be going around.

The following official notice was issued to each speaker today by the chairman and pamphlets outlining the talks and giving pointers for use in the same were distributed:

To all 4-Minute Men, Attention:
The campaign for the Y. M. C. A. War Fund opens next Monday, November 12th and will continue until November 25th. I am handing you herewith your circular of information on this subject. Please read it over carefully and "be up on your toes," ready to do your part in this splendid work.

Our men will speak at the different theatres during the campaign and you will receive due notice of the date and place where you are to speak.

Remember that we are drafted men, and that no excuse can be accepted.

The following loyal workers have been listed for the 4-minute Men work:

Judge W. F. Wieland, City Attorney; W. H. Crowell, Representative; Hilding A. Swanson, R. R. Gould, Rev. H. G. Stacey, Rev. J. J. O'Mahoney, John A. Hoffbauer, Prof. W. C. Cobb and E. A. Cohnhoun.

Come now, ALL TOGETHER, let's take the bit in our teeth and go to it. Yours for business,
FRED T. LINCOLN,
Secretary Brainerd 4-Minute Men.

RURAL CARRIER EXAMINATION

Will be Held at the Postoffice in This City on Dec. 8 to Fill Position at Brainerd Office

The United States Civil Service Commission has announced an examination for the county of Crow Wing, Minnesota, to be held at Brainerd on Dec. 8, 1917, to fill the position of rural carrier at Brainerd, Minn., and vacancies that may later occur on rural routes from other post offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1988. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

BRAINERD'S ODDEST STORIES OF TODAY

Depot men reported today that a "lady" had dropped a bottle of whiskey on the brick platform. The glass remains there, also a terrific smell of booze.

NEW WIRE STRUNG

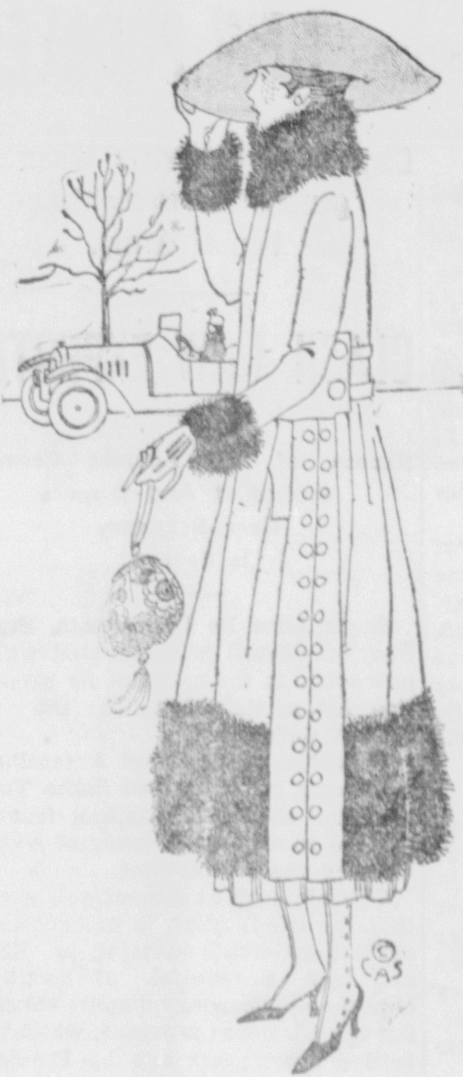

Western Union Has Crew of 24 at Work Adding New Wire Duluth to Brainerd

The Western Union is stringing an extra wire from Duluth to Brainerd and 24 or more men are quartered at the Ideal hotel. Increase of wire business necessitated another line.

Turn to the Right

In a discussion of a very prominent man it was said he was "self made." This created a lot of argument and the man's wife was thoroughly gone over and in the end it was proven that he was a "selfmade" man, but owed his prominence and riches directly to his mother's training. This will be found to be the case with most of the successful men.

"Turn to the Right!" the reigning comedy drama success, by Winchell Smith and John E. Hazzard, shows just how a mother's teaching helps her son and it entertains while doing so. If one loves real humor and sweet pathos, "Turn to the Right!" is sure to make him happy that he has gone to witness it. The original Chicago company will present "Turn to the Right!" at the Park opera house Sunday evening, December 9th.

Garment Day Saturday

We have a most interesting showing of cloth and plush coats, silk and serge dresses, silk and wool skirts and suits for Saturday.

Then we have a very large showing of new crepe de chine and georgette waists and petticoats to complete the costume. All reasonably priced.

10,000 Jackies Parade in Mass Formation Before Roosevelt at the Great Lakes Station

GREAT LAKES BAND PRAISED

Recruit Has Great Chances for Advancement, May Become Commissioned Officers

November 3, 1917.

The Dispatch:—

The chance for rapid advancement starts the recruit in the face at Great Lakes. The moment he emerges from detention where he is kept for 21 days as a health precaution, he becomes eligible to compete for and obtain admittance to any of the five instruction schools recently organized to hasten the task before us to terminate the war.

The only qualification the recruit requires to find this opportunity is willingness and ability to learn a little more rapidly than the other men who may be his competitor. On condition he shows these qualifications to a noticeable degree he will probably be found a few weeks after entering the Great Lakes as a recruit in either the Yeomen school, gunner's mates school, quartermaster's school, instruction camp for petty officers or perhaps in the coxswain school.

Many hundred of the boys have passed through these schools with glowing accounts since Uncle Sam has become so determined in pursuit of the one purpose. As an example of their successfulness we find that of 284 boys who took the gunner's mates course, 252 boys qualified and were detailed to various ships. Another two months we will find 1,500 gunner's mates, 1900 coxswains and 750 quartermasters enrolled on the

books and reporting for duty on ships as yet unknown.

The young men enter the Great Lakes Naval Train Station not with the idea of seeking and obtaining any special preferment but with the single idea and purpose of giving their services where it would most likely be needed.

Many may find the opportunity after becoming a petty officer and demonstrating extraordinary ability as such, to take examinations, which, if successfully passed will bring them commissions and the much coveted strape.

It is only appropriate that the Great Lakes station which is supplying the U. S. navy with thousands of men and the U. S. its greatest resource of man-supply should have the largest band in the world. It is not surprising that this great band has recently demonstrated in a triumphant tour over the east, that it is the most single effective unit in all the United States for arousing the deepest and most sincere patriotism of the kind that sacrifices as well as applauds.

We all say it is our band—the Great Lakes band—and I can safely say that every boy here feels proud of its existence. Some day perhaps it may become officially known as the United States band but, even then, as it is now, it will always belong to us—and with added honors.

On a warm sunny afternoon in late September, America's greatest aggregation of undiluted youth passed in review before Colonel Roosevelt. After the review nearly ten thousand jackies advanced in mass formation, to the reviewing stand, singing at the top of their lungs, "America, Here's My Boy."

There are two reasons why Teddy visited Great Lakes: One was to tell the boys how much he admired them, and the other was to receive an injection of that particular kind of concentrated enthusiasm that ten

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

9,000,000 MEN CALLED AT ONCE

To Give History To Determine Their Eligibility For Military Service.

CHANGES IN SYSTEM

Married Men Placed In Non-Belligerent Class Until Need for Their Services Become Greater.

Washington, Nov. 9.—In order that their availability for military service may be determined, 9,000,000 men will be called upon within the next week to give their personal history.

Secretary of War Baker announces that the new regulations for classifying the registered men not drawn in the first call have been completed and will be promulgated within a day or two. The revised regulations as they will be made public are radically different in several respects from the tentative list of five classes made public by Provost Marshal General Crowder in his first announcement of the reorganization of the draft system about a month ago.

Married Men Exempted.

The principal change, it was indicated, is the practical determination of the government to place all married men in the non-belligerent class.

Only men whose physical resources or whose family resources would guarantee their dependents a living during their absence will be liable for service in the field. In the overwhelming majority of cases, however, married men will be entirely exempt from military service unless the war should take a turn which would necessitate the mobilization of every able bodied man in the nation—a circumstance not considered by the authorities in the present light of the war situation, serious as it is.

OHIO WETS AGAIN IN LEAD

Incomplete Official Returns Give Margin of 588.

Cincinnati, Nov. 9.—At the end of the second day following the prohibition election in Ohio the result of whether the citizens would be subjected to a wet or dry state was still in doubt, but with complete returns from the 88 counties, 67 of which had turned in official reports, the wets were leading by a majority of 3,643 on the face of the returns.

This figure, however included a gain of 1,322 wet votes in Hamilton county, officially counted by the board of elections, which had not been reported to the secretary of state.

An announcement made by Secretary of State Fulton from figures compiled in his office gave the wets a majority of 588. These figures included all except one county and the 1,322 gained in the unofficial vote of Hamilton county.

U. S. HAS RECORD CORN CROP

Production of Potatoes Also Exceeds All Former Efforts.

Washington, Nov. 9.—A corn crop larger by more than 66,000,000 bushels than ever before grown in the history of American agriculture, is the production of the farmers of the United States this year. The Department of Agriculture in its preliminary estimate of the crop placed the quantity at 3,191,083,000 bushels.

Conditions since the October forecast caused a reduction of about 17,000,000 bushels in the indicated output.

Potatoes also are a record crop with a total of 439,686,000 bushels, but unfavorable weather late in the season caused a reduction of 13,000,000 bushels.

Tobacco production is a record.

HAM AND BACON PRICES CUT

Big Reduction Ordered In Chicago to Serve as U. S. Standard.

Chicago, Nov. 9.—Prices of ham and bacon to the consumer have been cut 5 to 10 cents by the Illinois food administrator. The government's complete control of the packing industry lends importance to the announcement. While for the moment the cut applies only to Chicago and suburbs, prices set here eventually will serve as the standard for the whole country.

German Editor Interned.

Portland, Ore., Nov. 9.—Max Lucke, former editor of the Portland Deutsche Zeitung, was arrested on a presidential warrant and will be interned for the duration of the war. Since the Zeitung was suspended Lucke has been editor of a German weekly here. He was a witness in the trial of Franz Boppe in San Francisco.

Buyer For Allies To Save Millions.

Chicago, Nov. 9.—Joseph B. Cotton, head of the meat committee of the federal food administration, will save the allies millions of dollars annually. This was the belief here when he actively assumed the position of purchasing agent for the entente. Competition of purchasing agents of foreign governments, resulting in bailing the market and excessive prices, will be eliminated. Allied governments no longer will be in the hands of speculators and food traffickers, officials pointed out.

CANNOT COMBAT HAIG

German Officer Says His Moving Barrage Is Irresistible.

No Way Devised By Boches To Prevent "Fire Roller" From Making Steady Gains.

Copenhagen, Nov. 9.—Lieut. General von Ardenne, military critic of the Berlin Tageblatt, gives unwilling testimony of the irresistible might of the British offensive in Flanders in a graphic picture from the French front of the difficulties of the German defense.

No way, he says, has been devised to prevent the "fire roller," as the Germans term the moving barrage, from making slow and steady gains. He reports the German losses as heavy if any attempt is made to hold the front line trenches in force, while a thin line adds to the speed of the British advance.

Relief Every Two Days.

"The sufferings of the defenders in the front line," General von Ardenne writes, "composed of shell holes almost filled with water, are such that the men must be relieved every two days, instead of every week or every 10 days, as last year. The infantry now spends two days on the firing line, two in support and two in reserve until relieved."

"The German artillery is so numerically inferior to the British that it is seldom relieved, and as it cannot dig in owing to the boggy terrain, it must fire without cover. The conditions in the shell holes are such that men falling into the centers of them are lost unless assisted."

Horses Stuck In Morass Shot.

"Horses breaking into the morass are shot, because it is impossible to extricate them. German counter-attacks can traverse the fire roller only by small detachments in single file. The loss is slight if the maneuver succeeds."

"The Germans evidently are anxious concerning an advance from Dixmude, where the road emerges from the inundated region."

The Germans maintain a concentric artillery fire on the road, but Von Ardenne thinks that an attempt to advance is not improbable.

U. S. Accepts Elks Hospital.

Washington, Nov. 9.—America's first great hospital for the reconstruction of wounded men has been accepted by the government from the Benevolent Protective Order of Elks. This hospital will be erected on Parker Hill, near Robert Brigham hospital in Boston, at a cost of \$250,000. The money was taken from the Elks' \$1,000,000 war relief fund.

Coal Production Below 1916.

Washington, Nov. 9.—Coal production is below last year's rate, according to the National Coal association, which asked the general transportation board for cars sufficient to handle the country's entire output. With the needed cars, operators said they could produce 400,000 more tons daily. A basis for figuring retail coal prices was authorized by the fuel administration to cover localities where the retailer's present profit, based on his 1915 or July, 1917, gross margin, is still unreasonable.

BRAZIL FACES NEW PROBLEM

Confronted By Crisis When Argentine Orders Mobilization of Army.

CLASH NOW EXPECTED

Excuse of Act Against Germans Scoffed at And Dispute Over Boundary Is Feared.

Santa Anna De Livramento, Brazil, Nov. 10.—Brazil is confronted with a new crisis in the midst of its preparation for participation in the war against Germany.

Persistent reports that Argentina is mobilizing at Libres and Santo Tome, near the southern Brazilian frontier, has led to open expectancy of a clash between the two nations.

Officials scoff at Argentine's excuse that the mobilization is precautionary against a German uprising in Brazil and fear a renewal of hostilities over the old boundary dispute concerning the Misiones province, which was settled some years ago by President Cleveland.

Brazil Anxious for Action.

The government is maintaining strong forces throughout the affected district and Brazilians are declared to be anxious for action against the Argentine troops.

The municipal authorities believe that the settlement of the general strike which has been in progress here for some time is only temporary and that the Germans are fomenting a new walkout.

The strike just settled was the third to come in quick succession, and, like the other, it greatly interfered with the shipment of foodstuffs and other supplies to the Entente Allies. Officials believe these strikes are part of a revolutionary movement.

Active Propaganda.

Among other internal problems Brazil is faced by a renewal of active propaganda by the monarchists, especially in the Rio Grande de Sul and Porto Alegre districts and which also is active here.

Brazil has prohibited entrance into the country of Uruguayan Germans. It is reported here that a national decree has been issued, suspending the constitutional rights of Germans. The decree is expected to cause a new outburst in the German provinces.

CIVIL WAR THREATENS RUSSIA

Fall of Kerensky May Stir up Strife—Washington Silent.

Washington, Nov. 9.—Kerensky's fall and the collapse of his government in Petrograd into the hands of the Maximalists who propose a separate peace with Germany, is regarded here as threatening Russia with a civil war which all her friends hope to see avoided.

The state department, entirely without official advice of its own, was silent, wishing to avoid making any statements until the situation could be accurately assessed on the basis of intimate reports from Ambassador Francis at Petrograd.

GERMANY CALLS LAST MEN

All Available Summoned For Military Service.

London, Nov. 9.—News of actual fighting activity in the west of which there was little, is overshadowed by dispatches from German sources, via Holland, that Germany has called to the colors every available man, even those who have been previously exempted from military service. Within 24 hours these advice state, all not absolutely unable to serve were on the way to training camps. The measure was explained by predictions of a great Teutonic offensive in the West before America's power can make itself fully felt there.

Roosevelt's Auto Runs Man Down.

New York, Nov. 9.—Colonel Roosevelt's automobile, driven by his chauffeur, Charles H. Lee, and with the colonel as a passenger, ran down John Murphy of Jamaica, N. Y. The colonel jumped from his car and picked up the injured man, ordering his driver to hurry to Roosevelt hospital. Murphy suffered several broken ribs, but his injuries are not considered serious. Witnesses declared the accident was unavoidable.

Mail Clerks Join A. F. of L.

Portsmouth, N. H., Nov. 9.—The Railway Mail Clerks association has voted to affiliate with the American Federation of Labor. The result of the recent referendum ballot is announced here as 6,827 in favor of joining the federation to 2,072 against.

Aviator Is Absolved.

New York, Nov. 9.—Samuel O. Livingood, Princeton aviator student, has been absolved of charges of violating military regulations by having poison in his possession. This was announced by Lieut. John G. Livingstone, assistant judge advocate of the courtmartial. Livingood, however, was fined a small sum for "having poison in his possession unknown to his commanding officer." The young man, whose home is at Zanesville, O., has returned to Princeton to continue his aviation studies.

ALL HOPE FOR MEN IS GONE

Survivors of Alcedo Sinking Given Up For Dead.

Washington, Nov. 9.—All hope for the safety of Lieut. John T. Melvin and the 20 enlisted men, reported missing after the torpedoing of the American patrol ship Alcedo, has been abandoned. Vice Admiral Sims cabled the Navy department that the search for survivors of the Alcedo had been given up and that it was believed most of the missing men had been killed outright by the explosion of the torpedo.

GERMAN WARSHIPS SIGHTED

Stockholm, Nov. 9.—A large German squadron of warships is off the Finnish naval station of Helsingfors, according to word received from Hap-sanda.

Presumably the presence of a German fleet in this location means Germany has resumed her naval drive in the Baltic and is now about to attack the Russian naval fortifications at Sveaborg, guarding Helsingfors.

Ask Passenger Rate Raises.

Washington, Nov. 9.—Permission to increase interchangeable passenger mileage book rates from 2 to 2½ cents a mile as asked of the interstate commission by southeastern railroads. The New Haven and central New England railroads joined the movement for higher fares in New England, by asking permission to raise mileage rates from 2½ to 3½ cents a mile and one way fares from 2½ to 3½ cents. The New Haven also seeks authority to increase freight rates.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Start Tomorrow and Keep It Up Every Morning

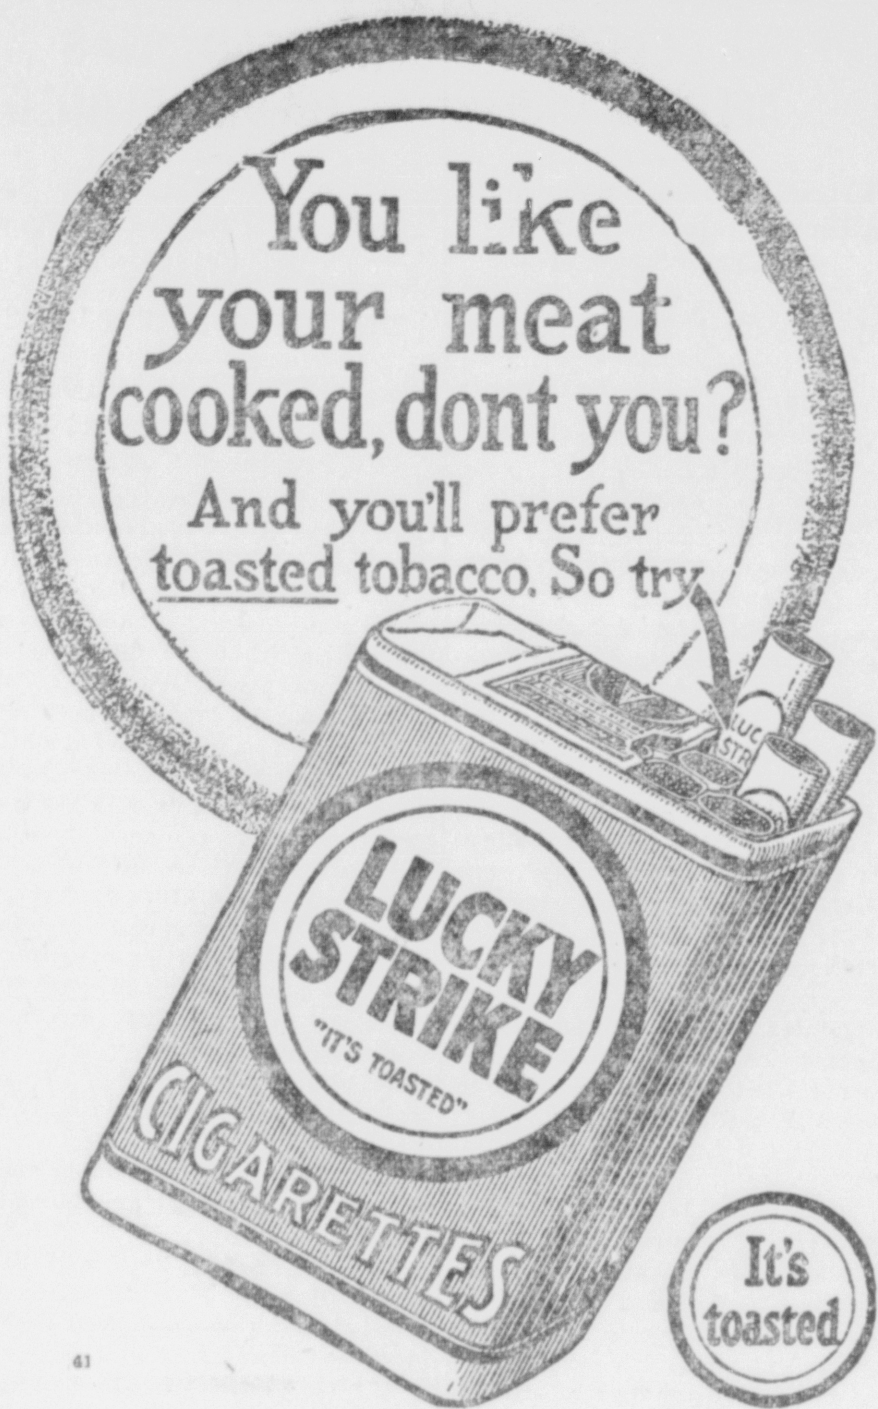

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.
